GOTR Assist

General GOTR Assist Features

This plugin is not fully automated, it only helps during certain portions of the minigame to make it more laid back

- Automatically fills pouches and resumes workbench crafting and mining the large guardians
- Upon entering a rift - it will automatically click the altar, craft all essence, drop "trash runes", and leave the rift
- Supports Combo Runes - Use Air runes for points, or Water runes for better gp. Have magic imbue and binding necks if doing combos

Bot Config

- Toggle: Click "not set" and choose a hotkey to toggle the plugin on/off

Gotr Config

- Enable Pouch Overlay - When switched on, it will show an overlay of the amount of Essence in each pouch
- Trash Runes - Automatically drops the enabled runes after crafting them. Hold control (command key if on Mac) and click to select multiple, or to turn them off
