

Logout Helper

Main Config

- Disable: Click "not set" and choose a hotkey to toggle the plugin off/on
- Privacy Mode: Having this checked will hide the Logout Helper infobox

Bot Config

Logout Action

- Uses an [Advanced Swapper](#) set to allow the plugin to Teleport
- The format is `swap:YourSetName` - replace `YourSetName` with the name of your Advanced Swapper set
- You can list multiple different teleport methods in your Advanced Swapper set and Logout Helper will utilize whichever one you have with you. If you do not have any methods, it will attempt to logout instead
- Not recommended to pair this setting with Disable PvP Checks, unless in a PvP World
- An example teleport Advanced Swapper set might look something like the following:

```
u:royal seed pod
e:amulet of glory(:65542
r:amulet of glory(:2
r:ring of wealth (:3
```

- The example set above would attempt to teleport with a Royal seed pod, teleport to Edgeville with a glory that is in your inventory with any number of charges, teleport to Edgeville with an equipped glory with any number of charges, or teleport to the Grand Exchange with an equipped ring of wealth with any number of charges. It will skip over any that you don't have, so listing multiple options is recommended
- Image examples of your Advanced Swapper set and Logout Helper config can be found [here](#) and [here](#)

Disable PvP Checks (Required for PvP Worlds)

- Will logout at the sight of any player around the world, whether you are in the wilderness or not
- Not recommended to pair this setting with a teleport Logout Action, unless in a PvP World

Only Log if Skulled

- (Wilderness Only) This will make the plugin only log you out if a player, in your combat bracket, is skulled
 - (Wilderness Only) If both Skulled and Geared are unchecked, the plugin will logout at the sight of anyone in your combat bracket

Only Log if Geared

- (Wilderness Only) This will make the plugin only log you out if a player, in your combat bracket, has a visible piece of gear equipped
 - (Wilderness Only) If both Geared and Skulled are unchecked, the plugin will logout at the sight of anyone in your combat bracket

Whitelist

- Enter usernames, separated by commas, to make it so you do not log out when these players are near
