NMZ Helper (High Risk Plugin)

General Info

- Supports Rock cake and Locator orb (overloads are required)
- Using Overloads requires having a Rock cake, or Locator orb, and Absorption potions

Main Config

- Enable - Click "not set" and choose a hotkey to toggle the plugin on/off
- Privacy - Hides the NMZ Helper infobox

Bot Config

- Game Over - Logout after a NMZ dream ends, or Restock and start another dream
- Powerups - Which, if any, power ups you'd like to grab while in NMZ. Hold control and click to select multiple, or to turn them off

Restock Config

Incorrect quantities will result in the plugin getting stuck outside NMZ when it's time to restock

- Absorption - How many DOSES of absorption to grab
- Overload - How many DOSES of overload to grab
- Prayer - How many POTIONS to grab from the bank

Passive Config

- Pray when Vulnerable - Enables overheads when your overload runs out to save absorption doses. NOTE: Having this enabled will make the plugin ONLY defensively pray when your overload runs out!

- Attack After Action - After performing an action, it will immediately attack the closest NPC, this slightly increases xp/hr, but adds extra clicks, which could increase risk!
- Defensive Prayer - Which overhead to pray, if any. Hold control and click to select multiple, or to turn them off
- Attack Prayers - Which offensive prayers to use, if any. Hold control and click to select multiple, or to turn them off

Thresholds

- Min/Max Abs - When it should start and stop drinking more absorption doses
- Min/Max Pray - When it should start and stop drinking more prayer doses

Spec Config

- Use Spec - Enable if you want to use a spec weapon
- Minimum Spec - The minimum amount of energy you must have to use a spec
- Spec Equipment - `id,id,id` format
  - Popular spec weapon IDs - Granite Maul(24225) Dragon Claws(13652)
- Spec Attack Prayer - Which offensive prayers to use while specing. Hold control and click to select multiple, or to turn them off
