

# Smart Click

## General Info

- Smart Click, often referred to as "One Click" or "IntelliClick" from other providers, is a set of plugins which allow you to Left Click anywhere on the game screen to redirect your clicks to the correct actions for various methods

## Supported Methods Info

- **Aerial Fishing:** Bring a knife to Molch Island, pick up a King Worm (or have Fish Chunks in your inventory already), stand on the East side of the island and start clicking! It'll automatically send the bird, cut the fish and repeat!
- **Agility:** Travel to your selected course in the config and start clicking! Seers TP is automatically supported if you have the diary completed and runes to cast it and it will (optionally) pick up Marks of Grace. It can also boost with Summer pies if you have them in your inventory and your agility level is below the required level for the selected course. "Zero Time" methods - High Alching and Bolt/Dart Fletching - are also supported
- **Alchemy Room (MTA):** Supports both Low and High Alch. Have a fire staff equipped (or other unlimited source of fire runes) and nature runes in your inventory, enter the Alchemy Room and start clicking! It will look the cabinets for the best item and alch them
- **Barb Fishing 3T:** This is for Barbarian fishing at Barbarian Outpost, or outside CoX - not fly fishing - Make sure you have your tick manipulation items of choice in your inventory (Knife + 1 Mahogany/Teak Log or 1 clean Guam Leaf + 15 Swamp Tar + Pestle and Mortar). Make sure you don't have more than ONE tick manipulation item, i.e. only bring ONE clean Guam Leaf, and don't bring two different methods. You must be clicking very fast in order for this to work correctly, most will use Auto Clicker - recommended auto clicker settings can be found [here](#)
- **Battlestaves:** This will craft battlestaves - enter the itemID for the orb you will be using in the "Crafting Config" section. ItemIDs can be found using the Gsoft Manager plugin, Examine Debug or Inventory IDs setting

- **Construction:** Supports Oak Larders and Mahogany Tables, select in the "Con Config" section. You must have a hammer and saw (supports equipable versions), Demon Butler, Rope bell-pull, Servant's money bag and set the Demon Butler to fetch 24 oak/mahogany planks from the bank.
  - For Oak Larders: Have the Larder space up against a room with no door - [Example](#)
  - For Mahogany Tables: If your Table Build Space is facing North/South, stand on the South West corner tile, [Example](#) - or If your Table Build Space is facing East/West, stand on the West side, South tile, [Example](#)
  
- **Glassblow:** Have the glassblowing pipe in your inventory and craft at least 1 of whatever you want to glassblow, the plugin will create whatever your last made item is
  
- **Drift Net:** Does drift net fishing for hunter and fishing xp. Have drift nets stored in the NPC and some Stamina potions in your inventory. If banking the loot, make sure you have the in game setting "Esc to close interfaces" turned on and have Numulite in your inventory.
  - Recommended equipment: Trident, or Dragon harpoon equipped, Fish bowl helmet, Diving apparatus, Graceful body, legs and gloves and Flippers
  
- **Echo Moth:** Originally for Leagues, this will simply left click on whatever NPC you "shift right click tagged" - Useful for catching butterflies/moths. It will not empty jars
  
- **Graveyard Room (MTA):** Does the MTA Graveyard room, have a mud staff equipped, or other combination of staff/runes to cast either Bones to Bananas, or Bones to Peaches. It will not eat
  
- **Herbi:** Hunts herbiboar and harvests them. Supports stamina potions and dropping unwanted herbs/fossils
  - This will not bank - once your inventory fills up it will continue hunting them for hunter xp, but will not harvest
  
- **Mining:** Shift Right Click "Mark" the Rocks in the order you'd like to mine them. If you are doing 3T4G, make sure you have the tick manipulation items you will be using in your inventory (Knife + 1 Mahogany/Teak Log or 1 clean Guam Leaf + 15 Swamp Tar + Pestle and Mortar). It also supports depositing Sandstone into the Grinder, this is done automatically if mining Sandstone

- **Mixology:** Does the Mixology minigame. You must be clicking at least 1 time per game tick for this to work properly - Auto Pray Flick with double click mode turned off is perfect for this - Keep a lot of paste in your inventory and don't have any unfinished potions sitting in the processing stalls
- **Refiner:** This is for creating paste for Mixology, keep noted herbs in your inventory that you'd like it to use
- **Tele Room (MTA):** Have an air staff equipped (or another source of unlimited air runes) and law runes in your inventory. Enter the Tele Room portal and start clicking
- **Tithe Farm:** Before getting started, if you have the "Tithe Farm Improved" plugin from the Plugin Hub, uninstall it, as it will break the plugin! Have a spade, seed dibber and 8 watering cans in your inventory (gric's can is not supported). Simply grab the seed type you'd like to use and enter Tithe Farm and then start clicking. Supports stamina/energy potions and humidify, just have them in your inventory and it will automatically use them.
- **Tick Teaks (1.5t):** The 1.5t teak method can only be done at the Fossil Island tree patches. You must have [Forester's rations](#) and tick manip items, such as 1 clean guam, 15+ swamp tar and a pestle and mortar. You must be clicking very fast for this method to work correctly, most will use Auto Clicker - recommended auto clicker settings can be found [here](#)
- **Thieving:** "Shift right click" target the NPC you'd like to pickpocket, or blackjack. The plugin will automatically eat, equip new Dodgy necklaces, open coin pouches, cast Shadow Veil and also supports the "prayer method" for those that want to use Redemption for healing instead of food
